September, 1989

MESSAGE FROM THE HON. PETER ELZINGA

I am pleased to introduce the 1988-89 Annual Review of the Alberta Agency for International Development (AAID).

Since 1974 the Government of Alberta has actively co-operated with Canada's non-governmental international development organizations in supporting their social, economic and humanitarian projects in the less developed countries. During these fifteen years the Government of Alberta has been the largest supporter of Canada's international development agencies among Canada's provincial governments. Our leadership in this area, recognizing as it does the remarkable achievements of "people organizations" in improving the well-being and livelihoods of "the poorest of the poor", has made a major contribution to the world-wide reputation of Canada's Non-Governmental Organizations (NGOs).

In 1988-89 the Government of Alberta provided financial assistance to 75 NGOs. 235 projects were supported in 58 countries, for a total expenditure of $3,335,884.00.

The following pages provide more detailed information on the NGOs and the projects undertaken by them. A separate section of the report outlines Alberta's assistance on a "by-country" basis.

I trust this Annual Review will prove useful to the NGOs and their many volunteers and supporters in our province.

Peter Elzinga
Minister

ALBERTA AGENCY FOR INTERNATIONAL DEVELOPMENT
